### Objective

To obtain a position in the field of Graphic Design with emphasis in Web and Print Design.

### Qualifications

Extensive knowledge of Adobe Illustrator, Photoshop, Fireworks, Dreamweaver, Flash, CSS and XHTML; experience with Ruby On Rails, SubVersioning software, Actionscript 2.0, Adobe InDesign, Captivate (tutorial creation), Premier, Bridge, and After Effects. Excellent understanding of both Windows and Mac Platforms, including hardware configuration knowledge and troubleshooting capabilities on both platforms. Experience in networking both Mac and PC platforms, utilizing TCP/IP, and Windows based server platforms. Familiar with software such as SFTP applications, Microsoft Office, OpenOffice.org, and more.

Familiar with content management systems, like West Virginia University's Slate system. Understanding includes template building, content management, weblogging capabilities, utilizing SSI's and shared resources, and general front end troubleshooting.

Participated in award winning projects within the WVU design program including the traveling exhibit for the West Virginia Humanities Council, John Henry still currently circulating the state of West Virginia.

Competent with SLR and DSLR cameras, with capability in their respective developing and printing techniques; several of my images have been published in local newspapers. Other complimentary skills include: Hand-Binding books, paper marbling, and other related book art skills, along with printmaking, ceramics, wood and metal sculpture.

### Employment

June 2008-Present Web Design Intern, West Virginia University Web Services.  
Duties include designing and implementing XHTML websites utilizing CSS, Ruby on Rails, Flash, SSI's, and JavaScript. Created a variety of tutorial videos including; training with WVU's proprietary CMS(Slate), instructions on using university related systems like e-mail, Simple Forms, and the WVU Text Alert system.

June 2008-August 31 2008 Web Design Intern under Juan Giraldo, WeSave.com.  
Duties included designing organizational office documents, marketing publications used by sales teams, web banners, web buttons, impact panels, and promotional documents for individual clients advertising with WeSave.com

2003-Present Freelance design work.  
Worked with a variety of clients following traditional design processes to produce promotional print materials, and website designs, seeing projects through to print or web implementation. Clients include a wide range, from local bands to retail and construction companies.

1998-2000 Computer network installation & system maintenance, Paper Warehouse.  
Designed and installed a small business network. Set up a Domain Server with multiple clients. Set up a print server, and employed several levels of security for the network users.
